

This Is A Sea Cow

Activity Kit

Written & Illustrated:
Cassandra Federman

Could a sea cow be your
new favorite animal?

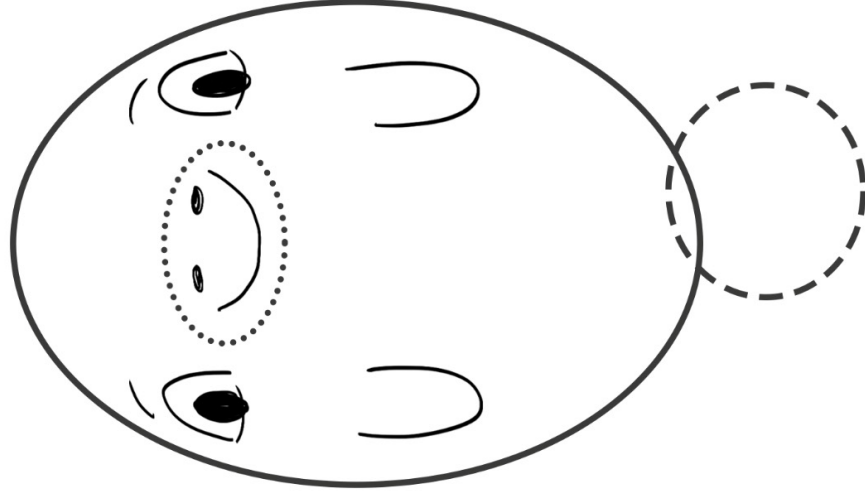

When an imaginative kid writes a school report about sea cows, the subject is NOT happy with her portrayal. Sea Cow—or “Manatee,” as she prefers to be called—comes to life in the pages of the report to defend herself against some unflattering comparisons and set the record straight with fascinating facts about manatees.

I love
activities!
